**Subject:** Re: Questions and requests

Alyson,

I uploaded all of the samples that were ready in the pipeline. A report is attached.

I deleted the two June UPDES for Trail Mountain, as requested.

I am the only one who can add information to samples once they have been uploaded, so you could just send it to me and I could put it in for you.

Let me know if I can do anything else.

Thanks,

Dana Dean, P.E.

Dana-

First there are samples that can be uploaded, however two samples I ok'd turned out to be mistakes, the dates on the DWR reports were wrong (the date on top said June, but they were in fact for May however another sheet said May and the sheets that said June were in fact duplicates of May with different dates. Since there was a May in the book I didn't notice the mistake until it was too late, sorry). If you could delete the two samples from June for Train Mountain UPDES that would be fantastic. Other than those two everything that has been ok'd can be uploaded.

Second, I just had a lab sheet placed on my desk from September 20 of 2001 lab # 59-23343, apparently the lab forgot to include oil and grease in their report and hence it is also not in the data base although the sample has already been entered and such. I'm wondering about the easiest way to enter the missing data, do you have suggestions?

That's all I can think of now, thanks for your help,  
Alyson
